MAKAUT University, WB

📅 2019

ABOUT

Full Stack Developer with 5 years of experience specializing in ReactJS, NodeJS and Django development, focusing on technologies such as ReactJS, Django, NodeJS, TailwindCSS, and Redux.

PROJECTS

- **Unocareer EdTech Platform** *Full Stack Developer*
 - **Technologies Used:** React.js, Strapi-CMS, JavaScript, HTML5, CSS3, REST APIs
 - Developed and maintained the platform's front-end using React.js, ensuring a responsive and user-friendly interface for students and Mentors.
 - Managed back-end services using Strapi-CMS, creating and integrating custom content types to handle dynamic content.
- **Blastpad** *Full Stack developer*
 - **Technologies Used:** Proton Blockchain(XPR), ReactJS, Django, Material-UI
 - Blastpad is an exciting project leveraging the Proton blockchain to revolutionize cryptocurrency transactions.
 - Our focus was enhancing user engagement through innovative features like airdrop push, claim, token creation, and staking.
- **TravelClub** *Full Stack developer*
 - **Technologies Used:** Proton Blockchain(XPR), ReactJS, Django, Material-UI
 - **Description:** contributed to the Travel Club, a blockchain-powered platform facilitating hotel bookings using cryptocurrency. We utilized the Proton blockchain for enhanced decentralization.
 - Led frontend and backend development, crafting a user-friendly interface and fast response to improve engagement.
 - Collaborated closely to integrate the app with blockchain functionalities seamlessly.

CERTIFICATIONS

MERN Stack Development Training

MASAI School

📅 Mar 2019 – Aug 2019 📍 Remote

- Gained hands-on experience in building full-stack applications using the MERN stack (MongoDB, Express, React, Node.js).
- Worked collaboratively with peers on various project assignments, fostering teamwork and communication skills.
- Developed clones of popular websites such as Hotstar and MPL, showcasing strong frontend and backend integration abilities.
