- Worked on React.js and Next.js projects and also written unit test cases using React-testing-library
- Worked on React-Native based project and also integrated WebRTC-based Vonage Video API

SKILLS

HTML and CSS

Javascript

ABOUT

Full Stack Developer with 3 years of experience specializing in ReactJS development, focusing on technologies such as ReactJS, NextJS, Tailwind-CSS, and Redux.

PROJECTS

- InnerJoy LMS Platform** *Full-Stack Developer*
 - Technologies Used:** React.js, Next.js, Node.js, JavaScript.
 - Worked on UI creation to API integration complete flow.
 - Also worked on proper error handling from front-end and backend with code optimization.
 - Managed back-end services using Strapi-CMS, creating and integrating custom content types to handle dynamic content.
- Unocareer EdTech Platform** *Full-Stack Developer*
 - Technologies Used:** React.js, Strapi-CMS, JavaScript, HTML5, CSS3, REST APIs
 - Developed and maintained the platform's front-end using React.js, ensuring a responsive and user-friendly interface for students and Mentors.
 - Managed back-end services using Strapi-CMS, creating and integrating custom content types to handle dynamic content.
- Blastpad** *Front-end developer*
 - Technologies Used:** Proton Blockchain(XPR), ReactJS, Material-UI
 - Blastpad is an exciting project leveraging the Proton blockchain to revolutionize cryptocurrency transactions.
 - Our focus was enhancing user engagement through innovative features like airdrop push, claim, token creation, and staking.
- TravelClub** *Front-end developer*
 - Technologies Used:** Proton Blockchain(XPR), ReactJS, Material-UI
 - Description:** contributed to the Travel Club, a blockchain-powered platform facilitating hotel bookings using cryptocurrency. We utilized the Proton blockchain for enhanced decentralization.
 - Led front-end development, crafting a user-friendly interface to improve engagement.
 - Collaborated closely to integrate front-end with blockchain functionalities seamlessly.
